Disclaimer

This information tries to answer your questions relating to tuition fees and funding. The bursaries will be subject to the annual inflationary increases announced by the Government (assuming the variable fee also increases in line with the annual inflation rate). Means tested thresholds will also increase in line with any Government announcements.

UK students - for all residual household income categories, the College bursary will be in addition to the assistance available from the Student Finance England. If students are eligible they may receive multiple bursaries/fee waivers. These Bursaries will require a student loan application even if no tuition fee support is required for further information please contact Finance Team on 01702 220428 or email hefinance@southessex.ac.uk.

Please also visit www.gov.uk for information about application to Student Finance England. Please note: **EU students** are not eligible for the UK Government maintenance grant or the College Bursary. EU students should contact the Government in their own country to see if they are eligible for any financial support from them.

Students studying full time and applying for the Tuition Fee Loan (Home Students only)

If evidence of application to Student Finance England for the student tuition loan cannot be provided at enrolment, self-paying status will be applied and students will be subject to the payment details stated above. However this may be overturned by providing Student Finance England confirmation of tuition fee support to our finance team at hefinance@southessex.ac.uk prior to Monday 16th October 2023.
